

## INBRED MAIZE LINE PHAVN

### Abstract

A novel inbred maize line designated PHAVN and seed, plants and plant parts  
5 thereof. Methods for producing a maize plant that comprise crossing inbred  
maize line PHAVN with another maize plant. Methods for producing a maize  
plant containing in its genetic material one or more traits introgressed into  
PHAVN through backcross conversion and/or transformation, and to the maize  
seed, plant and plant part produced thereby. Hybrid maize seed, plant or plant  
10 part produced by crossing the inbred line PHAVN or an introgressed trait  
conversion of PHAVN with another maize line. Inbred maize lines derived from  
inbred maize line PHAVN, methods for producing other inbred maize lines  
derived from inbred maize line PHAVN and the inbred maize lines and their parts  
derived by the use of those methods.
